学校が休みの期間の健康観察について

Thank you so much for your cooperation and understanding during the Covid-19 pandemic.

Because of Covid-19, schools have been temporarily closed until August 31st. During this period, please continue to check your child's temperature, monitor their health, and report it to the school.

Please observe health of your child more carefully than ever before. If you have any cold symptoms in your children or family, please refrain from school and visit a medical institution. We want you to understand the importance of health observation and cooperate.

To report your child's temperature and health, please use the Loilo Note School system. Please report by 9:00 a.m. daily. Please report Saturday and Sunday as well. If you feel Loilo Note difficult to use, please call the school. There is no telephone connection on Saturday and Sundays.

Motomachi Elementary schools will be closed until August 31, but please ensure daily health observations during the temporary closure period from August 27 to August 31 for the gradual resumption of educational activities from September onwards.

Please refer to the separate sheet for the submission method. In the future, online classes using "Loilo Note School system" will be expected, so please cooperate with The Loilo Note School system as much as possible.

○If you would like to consult with the school about your child's health, life, or education, please call. (TEL 045-681-7810).
