

We are Minato Sohgo High School Students

《 2013 》

Christopher

Minato Sohgo really was fun. Because the teachers and students were so nice, I looked forward to coming to school every day. Everyone talked to me , and taught me a lot.

Thank you . If possible , I want to come again. I'll continue studying , japanese , so do your best studying English !! Thank you.

Pratic

This school was so kind to me. The students, the faculty everyone made me feel welcomed. Although I could not understand, I appreciated that everyone tried to communicate with me.

Caoimhe

Thank you to everyone for my time here at Minato Sohgo.

This mounth has been the best time of my life. I have learned so much Japanese in this short time, and also learned a lot about myself. Although when I return to Ireland I will be a university student , in my heart I will always be have made will always be in my life.

Kate
(Australia)

I could barely believe how fast I learned japanese from the great friends I made at Minato Sohgo. Even though three months is a very short time, I feel so very much a part of things. I will never forget the kindness of my teachers and peers who always helped me with

any difficulties I had. I feel there is nothing so likely to touch your heart as coming to a new place and being so warmly accepted.

Chitrangada
(India)

I feel that Japanese schools are those which show us a path to reach our goals. Education is an integral part of these schools and so far I feel that not only academics but extra-curricular activities have also helped them to develop their other skills. It contributes to an all-round development. I am glad to be a part of their family and hope that the memories I have collected will be cherished later.

Man Xueyang

I really like Minato Sohgo as I have lots of fun, with the friends I have made here. I have joined the dance club and that is lots of fun as well.

Gabriella

So far, the time that I have spent in Japan and Minato Sohgo has been incredible. I have made many friends and memories that I will take back with me to Australia.

I've had a lot of fun in school these three months. I made many friends and the teachers are really kind. They taught me about Japanese culture and helped me with many problems. I am very thankful for them.

Sanna
(India)

I am in Minato Sohgo High School. I came from India three months ago. School is really fun. My Japanese school mates and teachers are very kind. My classes in school are very fun. For example, I like calligraphy and art. The culture festival was extremely fun too! Everyone became friends with me. Even though the earthquake was bad in the Tohoku area, school life in Yokohama is just fine.

Velonica
(Sweden)

I have been going to Minato Sohgo High School for almost four months. Before coming I was prepared for the worst, that the school would be really strict, I wouldn't get any friends, but none of these were the case. The school and the teachers are very kind, especially towards the exchange students. I have many music, P.E. and English classes where I can participate despite my lack of knowing Japanese. In the classes where I don't understand anything, I study Japanese on my own. As for friends, everyone is friendly, cheerful and helpful. Especially, the club activities after school are really fun. Japanese school life is great and I enjoy it everyday !
